EDUCATION

B.Sc. Computer Science & Information Technology (CSIT)

Trivhuwan University – Kathmandu, Nepa

PROJECTS

Book Recommendation System

June 2025

- Description: A full-stack web app that suggests books based on user preferences and collaborative filtering.
- Technologies: Python (Django), React, Tailwind CSS, MySQL, Data preprocessing (Pandas/NumPy)
- Key Contributions: Designed the REST API, implemented the recommendation algorithm, built the responsive front-end, and deployed the prototype on a Linux server.
- Link: [BookRecommendationSystem](#)
